Manufacturing Group

Validating research ideas in the field of AM with industrial partners

Additive manufacturing technologies offer great potential for innovation in a wide range of industrial applications. While industry often has difficulty assessing where and how these technologies can be utilised profitably, many innovative ideas are generated in research institutes.

The Innovation Booster Additive Manufacturing (IBAM) operated by the AM Network and the Swissmem - Additive Manufacturing Industry Sector (Swiss Additive Manufacturing Group SAMG) bring together partners from industry and research and help participants to identify innovation ideas of mutual interest in order to subsequently apply for project funding.

Date: Tuesday 3rd September 2024, 10:15 or 13:00 – 17:30

Place: Maxon Motor AG, Brünigstrasse 220, 6072 Sachseln

Program

10:15	Arrival / Welcome
10:30	Tour of Maxon Motor AG (max. 40 people)
12:00	Lunch / Networking
13:00	Welcome by AM Network - IBAM and Swissmem - SAMG
13:15	Introduction: "Why AM is crucial for your business"
13:30	Block 1: Project ideas from research: 5 x 3 min. + 3 min. Q&A
14:00	Coffee break
14:30	Block 2: Project ideas from research: 5 x 3 min. + 3 min. Q&A
15:00	Presentation of a successful project example
